Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/626,387	Applicant(s) CHEN ET AL.	
	Examiner SATYA B. SASTRI	Art Unit 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction Requirement

1. Preliminary amendment filed on July 24, 2003 is made of record. With the cancellation of claims 1-10, claims 11-42 are pending in the application.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 11-20, 33-42, drawn to laminated wood product, adhesively joined by an adhesive comprising an isocyanate-functional prepolymer and an aqueous polymer emulsion; and a method of making laminated wood product using an adhesive comprising an isocyanate-functional prepolymer and an aqueous polymer emulsion. (Note: claims 34-42 that depend on claim 33 are construed as method claims), classified in class 156, subclass 331.7.
 - II. Claims 21-32 drawn to a process of joining two surfaces of wood having a moisture content less than 10% by wt., and using an aqueous adhesive, classified in class 156, subclass 327.
3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions are unrelated because Group I invention pertains to adhesively joining any wood surface with a specific adhesive. On the other hand, invention II is drawn to a method of adhesively joining a specific wood comprising the specific step of misting the surface and applying an aqueous adhesive composition, not requiring the particular adhesive of Group I invention.

4. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Jerry Mueller on March 28, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1796

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Satya B. Sastri at (571) 272 1112. The examiner can be reached on Mondays-Wednesdays, 9AM-5PM.
